

## Cabinets & Racks

# Vertical Power Distribution Units (PDUs)

PDUs are used for distribution of power to equipment within a cabinet or rack.

Vertical orientated PDUs can have 10-20 sockets.

All PDUs come with a master on/off switch and can have an optional circuit breaker.

Our high quality PDUs have passed all relevant international standards and can come with all international plug/socket types, such as: UK, EU, US, IEC, etc.

## Features & Benefits

- Vertical is suitable for rack mounting
- Left hand single power input
- CE Approved & RoHS compliant
- Various international plug/socket types available, including: UK, EU, US, IEC, etc
- 10-20 sockets
- Master on/off switch
- Optional circuit breaker

## Technical Specifications

Cable	3G*1.5mm <sup>2</sup> *2m
Shell	Aluminium Alloy
Colour	Silver/Black
Vertical	2550VAC
Installation Orientation	Vertical
Max. Current	16A
Control	Current Meter
Protection	3 Lamp Surge Protector

## Ordering Information
